

TEACHERS TO HEAR NOTED SPEAKERS

Plans Made for Unusually Good Program for Educational Association.

BIG ATTENDANCE EXPECTED

Tentative Program Announced for Meeting by Secretary Binford.

Distinguished speakers have been secured to make the principal addresses at the annual meeting of the Virginia Educational Association, which will be held in Richmond on Wednesday, Thursday and Friday, November 27, 28 and 29. Dr. J. P. McConnell, of Radford, who, as president of the State Teachers' Association, is chairman of the board of the Virginia Educational Association, has been busy, with Secretary J. H. Bedford, in preparing a program that will be attractive.

The meeting will last but three days this year, against four in former years.

Well Known Speakers. Dr. Henry F. Cope, of Chicago, will deliver one of the addresses. He is a widely-known speaker. Dr. Cope is general secretary of the Religious Association of America.

An address on International peace will be made by Dr. Philip Van Ness Meyers, of Ohio.

Dr. Augusta Bonner, of the Teachers' College of Columbia University, will be the program, and Dr. Kirby Flower Smith, of Johns Hopkins University.

Among Virginians who are down for addresses are Richard Evelyn Byrd, Speaker of the House of Delegates, Harry St. George Tucker, former member of Congress, and Dr. Henry Louis Smith, president of Washington and Lee University. Many college pupils in this State will speak.

Reduced rates have been secured on the railroads, and the procedure this time will be devoid of red tape.

Many People Expected. Probably 2,000 visitors will be in Richmond during this meeting. Not only the accredited delegates from local organizations of teachers, with members of other bodies, which make up the association, but hundreds of others come to the city because the gathering is going on. Thanksgiving time affords release from school duties.

The Virginia Educational Association is composed of the State Teachers' Association, the Conference of Division Superintendents, the School Trustees Association and the Co-operative Education Association of Virginia. Again, the State Teachers' Association is subdivided into many bodies, including the Association of Colleges and Secondary Schools, Grammar Grade Teachers Society, Primary Teachers Society, Kindergarten Teachers Society, Geography Teachers Association, Society of Teachers of Agriculture, Association of Teachers of Domestic Arts, and many others.

The Virginia Library Association always meets at the same time, as does the Classical Association of Virginia, both organizations drawing from all parts of the Virginia Educational Association and from the outside as well.

Arrangement of Meetings. These various bodies hold meetings at such hours as they can sandwich in. The four larger bodies hold regularly scheduled gatherings, while the entire association comes together each night to hear some prominent speakers.

The auditorium of the John Marshall High School will be used for the main meetings, and the building will house most of the smaller bodies in different rooms, while other schools will be available for additional gatherings. The first meeting will be held at noon on Wednesday, October 27, when the executive committee of the State Teachers' Association will assemble. The opening meeting of the State Teachers' Association will be held at 3:30 P. M. on that day, while a general session of the Virginia Educational Association will be held at 8 o'clock P. M.

LITTLE PROGRESS IN MAKING REPORT

Street Committee Meets Tomorrow to Formulate Reasons for Rejecting Franchise.

GIVES NO ADEQUATE RETURNS

No Lower Rates or Better Service to Justify Special Privileges.

In the absence of the City Attorney and without the services of a stenographer, little progress was made last night in drafting the report of the Committee on Streets giving its reasons for recommending that both bids be rejected for the proposed light and power franchise. The subcommittee will meet again this afternoon in the office of Alderman Ordway Puller, and will complete its report in time to submit it to a meeting of the Committee on Streets to-morrow afternoon. Regardless of the statement of its reasons, however, the full Committee on Streets is on record as opposing acceptance of either bid, by a vote of 5 to 2. The question now is whether the majority will get together on the reasons. Some members favor the general principle of competitive franchises, but dislike the draft that was advertised, holding that it does not guarantee service in the residence sections. Other members of the committee are opposed to the granting of any competitive franchise when there is no apparent benefit to the community, and when there is no promise of lower rates or better service.

Light as Well Give Away Park. "It would be a very nice thing for me," said a member of the committee last night, "if the council would grant me the right to erect my house in Monroe Park. It would be a most

desirable location for a dwelling, with large grounds surrounding it, but it would be obviously improper for the Council to grant to any one such a privilege unless there were to accrue to the community as a result some large public benefit of equal or greater value to the citizens generally than the park.

In this case the Council is asked to give the use of the streets to some people who propose to do business in them by erecting poles, wires and conduits, but I do not see that any benefit to the community has been assured that would justify such a grant. Under the franchise advertised we can only compel them to serve the residential and outlying sections, if at all, after prolonged litigation. There is no present promise of lower rates or better service, and there is always the prospect of a consolidation, with rates increased to pay interest on a double investment."

Will Keep Up Fight.

The Henrico Railway has not given up the fight, however, and claims that even in the face of an adverse report from the Committee on Streets, it will muster enough votes to put the franchise through the City Council. The former Council, it claims, settled once and for all the question of competition in public service, by ordering the advertisement of the franchise for bids. As to the validity of the grant, they point to the opinion of Assistant City Attorney Anderson, who has advised that in his opinion the paper originally prepared by counsel for the Henrico Railway is a valid one, although Colonel Anderson adds that it is not such a franchise as he would himself have drawn. Colonel Anderson has advised the committee that it is within the province of the Council at any time that the rates here become unreasonable or the service unsatisfactory, to prepare its own model franchise, without suggestion of partisan attorneys, and advertise it for sale to the highest bidder.

Truman Released.

James H. Truman, who was recently arrested in Henrico County for alleged mistreatment of his wife, was yesterday released by Magistrate T. J. Puryear on his own promise to refrain from further dealings with her.
